Figure 5

Figure 6

This diagram shows an exploded perspective view of a mechanical assembly. The main component is a large, circular, flange-like structure with a central opening. It features a series of concentric rings and a central bore. Several smaller components are shown around it, including a cylindrical part (110) with a flange, a long cylindrical rod (148) with a handle (146) and a base (150), and various bolts, nuts, and washers. The components are labeled with numbers: 110, 111, 106, 158, 154, 156, 157, 152, 141, 140, 142, 126, 124, 144, 136, 149, 132, 148, 150, and 154. The diagram illustrates the assembly relationship between these parts.
